## INTEGRITY RESTORED WITHOUT ALTERING AESTHETICS

Masonry Solutions International is a Baltimore-based technical services and manufacturing firm providing customized approaches for the rejuvenation of masonry structures. For over 20 years, MSI has provided design teams, commercial property owners, and contractors with invisible, non-invasive, fabric saving techniques and materials specifically developed for masonry structures.

## PRESERVATION AND ENHANCEMENT SERVICES

Masonry Solutions International is proud to have worked on a variety of masonry projects throughout the US and Europe. Our comprehensive service solutions include:

- Stabilization of Historic Structures
- Façade repair and attachment
- Moisture prevention
- Seismic retrofit
- Wind and Flood Enhancement
- Crack repair
- Adaptive Re-use
- LEED certified renovation
- Blast mitigation
- Legal Consultation & Expert Witness

Call us with any questions you may have about a potential masonry repair or enhancement, (877) 815-7906. We provide free onsite consultation with proper verification.

## TESTING AND CONSULTING

Masonry Solutions International is pleased to offer the following independent testing and consulting services:

- Non-Destructive Evaluation
- Material Analysis and Laboratory Testing
- Protocol Design and Review
- In-Situ Testing and Reporting
- Project Goal Verification

## MASONRY PRODUCTS AND TECHNOLOGIES

MSI also supplies project teams and contractors with advanced systems for masonry enhancement, including:

- GRUENSTARK™, the world's strongest anchoring system
- Compatible Injected Fill™ (CIF)
- Stainless Steel post-tensioning systems
- Masonry fasteners, connectors, & ties
- Injection and coring machinery/accessories
- Custom-designed masonry applications and tools
